Culturally Responsive Board Leadership Workshop Series

Equity Alliance MN is proud to offer three workshops on culturally responsive leadership for school board members.

Each workshop focuses on ways to build internal capacity for culturally responsive leadership and collective capacity for school board governance using an equity lens.

Essential Questions Include...

Workshop 101: What questions can I begin to ask that lead to developing equity in my district?

Workshop 202: Acting as a single entity, what can we do as a board to affect systemic change?

Workshop 303: How do we handle pushback when doing equity work?
