

EDPlan™ Connect

Increase family engagement in all aspects of a student's education.

EDPlan Connect is our all-in-one caregiver portal that promotes increased family involvement in a child's education. Educating a child can be a multi-faceted and paperwork intensive process with teachers, families, administrators, doctors, and others all needing to provide input—whether it's signing an Individualized Education Program (IEP), consenting to bill Medicaid, or prescribing services via Order/Referral.

With EDPlan Connect, caregivers have a centralized, secure place to:

- Access student records online and in their native language
- Sign documents electronically and save time
- Receive automatic and personalized notifications from other key stakeholders
- Stay up to date with student progress

How does EDPlan Connect work?

After a school identifies the level of access for each stakeholder and actions needed, auto-alerts are sent to caregivers, doctors, and others informing them of any required actions on their part. From there, caregivers may begin reviewing, monitoring, or signing documents based on their access. Our portal offers:

- Increased compliance for special education and Medicaid,
- Full transparency regarding student's eligibility, IEP, and service information, as well as visibility of all finalized documents on the student's record,
- Automatic translations for families in their native language,
- Secure place for individuals to complete required actions and provide feedback, and
- Built in tools to electronically sign documents from a lap top, tablet, or mobile device.

“Family engagement refers to the systematic inclusion of families in activities and programs that promote children's development, learning, and wellness, including in the planning, development, and evaluation of such activities, programs, and systems.”

- U.S. Dept. of Education, U.S. Dept of Health & Human Services Policy Statement On Family Engagement From The Early Years To The Early Grades, 2016

Why is family involvement so critical to student success?

Research tells us that family engagement produces students who are more likely to:

Bundle EDPlan Connect with PCG's other Family & Community Engagement Solutions — PCG Notifier and EDPlan Translation — for even greater impact.

EDPlan is a suite of tools and services from PCG that helps you promote a plan for student success—in special education, academics, behavior, and beyond. EDPlan's features have been designed in partnership with teachers, education professionals, and project management experts. EDPlan is being used in more than 30 states, supporting thousands of schools and districts nationwide, more than any other solution today.
