

**Purpose:** The StormReady Supporter application requires the facility to inform Emergency Management Director of their intent to be StormReady and to forward him or her, a copy of the StormReady application.

**Instructions for Teacher:** Prior to beginning the StormReady in a Box project with your class. Contact your local Emergency Management Director(s). For school districts that contain more than one municipality or county, consider contacting Emergency Management Directors from all of involved municipalities and counties. The contact information for Emergency Management Directors should be available on City and County webpages.

Upon completion of the project, but before sending us your application, be sure send your local Emergency Management Director a copy of your StormReady Supporter application.

On the application, please note the date the Emergency Management Directors were informed and sent copies of your StormReady Supporter application. Follow the model below:
