

Purpose: The StormReady Supporter application requires that the building undergo a StormReady Renewal every five years. This ensures that the building's preparedness is always improving over time.

Instructions for Teacher: On the StormReady application, denote that you are willing to renew StormReady supporter status in five years. When this time comes around, the building will have to go through the application process again and be reapproved from the StormReady Board. Please note that some of the StormReady Supporter requirements are required to be done every two or three years, even if your StormReady Supporter status is not up for renewal yet.

Additional Information: Contact the National Weather Service office in Chanhassen, for additional information on the StormReady renewal process when your StormReady recognition is approaching five years. Please note that some of the StormReady Supporter requirements are required to be done every two or three years, even if your StormReady Supporter status is not up for renewal yet.
