

Replicated Reality

Available Fall 2019

Replicated Reality is a comprehensive system capable of bringing real-world experiences into the classroom through a fun, safe, fully customizable platform. The program explores money management, career awareness and exploration, financial decision making and social-emotional learning opportunities in a fun, safe classroom environment.

Employment

Create job boards your students can apply for, interview, and work to earn money and experience

***Jobs can be aligned to academic standards and occupational codes*

Online Banking

Students learn money management through a cashless economy complete with online banking, automatic bill-pay, and direct deposit

Real Estate

Desk rental system allows your students the experience of managing a contractual rental agreement and recurring bill

For More Information

WorkLifeReady.com/Replicated-Reality

Career Awareness

The ability to directly link jobs to real-world occupational codes allows your students to explore their dream job!

Virtual Store

Built in reward motivation that allows students to exercise their creativity and build their very own virtual world

R-Squared Community & Classroom Rewards

Teachers can talk to other teachers about the program and submit ideas for classroom rewards!
